Paul J. Howard's DAFFODILS AND NARCISSUS

GIANT TRUMPET
DAFFODIL
DAWSON CITY

Daffodils and Narcissus should be freely planted for they thrive perfectly in California and no other group of flowers so freshly heralds the joyousness of spring.

Set the bulbs from 4 to 6 inches deep, depending on whether soil is heavy or light—deeper when soil is light. It should be moist and workable and carefully spaded, when plantings are made. After planting, water thoroughly and mulch with peat moss or leaf mold. Then do not water again until leaves appear above the ground. A slightly shaded situation is best. Narcissus should be set out in October and November, to give the bulbs a good start.

All Bulbs offered below are Giant or Jumbo Double Nose size. Prices quoted include shipping charges through 4th postal zone.

**HOW TO GROW
GORGEOUS, LONG-STEMMED TULIPS**

1. Select only the largest size firm bulbs, as offered by Paul J. Howard's.
2. Plant in sun or semi-shade.
3. Spade up and fertilize the soil to a depth of 12 inches.
4. Plant bulbs at least six inches deep. In light soil, they can be eight inches deep.
5. Cover with a mulch of peat moss, manure or leaf mold, and give bed a thorough soaking right after bulbs are planted. In place of a mulch, a cover of low growing annuals may be planted, that will bloom through the winter and continue until after tulip-flowering time.
6. Water only lightly, to keep surface from drying out, until tulip leaves appear above ground,—then
7. Keep bed constantly moist, soaking it more thoroughly and oftener than you do most other kinds of flowers. Tulips require lots of water for long-stemmed blooms.

GLORIOUS PARROT TULIPS

These have long petals, fluted, ruffled and deeply cut, on long stiff stems. They are the showiest of all tulips, rare and scarce.

BULB PLANTING CHART

This chart shows average depth to plant. In heavy soils, do not cover quite so deeply.

PAUL J. HOWARD'S HOLLAND GROWN HYACINTHS

Tall, fragrant spikes of Hyacinth blooms are among the most cherished of spring flowers. Holland grown bulbs are again available for garden planting, and for growing in pots or glasses. The larger the bulbs, the heavier the flower spikes, therefore we import only the choicest of top size bulbs.

Plant Hyacinth bulbs in carefully prepared, well drained soil, 5 to 7 inches deep, and 8 inches apart. In heavy soil, do not cover quite so deeply. Water thoroughly after planting, and fertilize with bone meal.

Paul J. Howard's BEDDING PLANTS in Plant Band Pots

Plants in Plant Band Pots Are Stronger

Each has its own root system, not tangled up with others as are flat grown plants.

Plant band pots hold more soil than 2 1/4 inch pots; each plant has an equal amount of soil and fertilizer, giving each one an equal start.

Plants in Plant Band Pots Save you Money, because no roots are damaged in transplanting, therefore losses are out.

Easy to Plant

Plant Band Pots save you time and effort. You don't have to plant them all at once, either. Plant Band Pots protect the roots from drying or injury. Space them in the beds and plant as desired.

Simply slit up one corner of the band with a knife; see how readily it slips off.

Notice the active root system, ready to reach out into your prepared soil.

Best of all, after planting, notice their quicker response, stronger growth, and superior blooming qualities.

See descriptions under Flower Seeds on Page 6.

HARDY IRIS

Hardy Iris are most effective in perennial borders and among shrubbery, and one of the easiest plants to grow. Choose a sunny, well-drained location, with good garden soil. If soil is poor, fertilize with good commercial fertilizer or bone meal, in fall and once or twice in spring. Set plants 12 to 18 inches apart, and just cover the rhizomes. Water thoroughly after planting, and keep moderately moist after that. Iris may be planted any time from June to winter.

The Iris offered below are outstanding in beauty and coloring, selected from the finest of American and French Iris gardens.

Prices include postage through the fourth zone (within 600 miles of Los Angeles).

Please add sales tax to all California orders.
